CANADA IS VENTURING ON THE PATH OF COLONIALISM AGAIN: RCMP RAIDS UNCEDED WET'SUWET'EN LAND, SIX ARRESTED

Early in the morning of February 6, 2020, the Royal Canadian Mounted Police (RCMP) brutally raided Wet'suwet'en territory. The **European Alliance** along with the organisers and participants of the **Indianer Inuit Nordamerika Filmfestival** condemn the gross violation of the United Nations Declaration of the Rights of Indigenous Peoples (UNDRIP) to push forward the Coastal GasLink pipeline. All persons arrested have to be set free unconditionally.

The undersigned stand in support with the WET'SUWET'EN and urges the Canadian government to stop the harassment and the violation of Indigenous rights. International law must be kept and thus the unceded territory of the sovereign Indigenous People has to be respected.
